Ref MD: Sabir, Jennifer F M.D.

MRN: M000864201

Pt Type: REG CLI

Loc: DICOH

Account: V06171666883

Age: 8

DOB: 05/18/2000

Service Date: 05/11/09

Clinical History: EXPOSURE TO TB / CHRONIC COUGH

Modality: DX

Exam: Chest Pa and Lat CXR

CPT #: 71020

Order Date and #: 0511-0154

Chest two views.

Patient history: Chronic cough, TB exposure.

Findings: Heart and mediastinal contours appear normal. There are prominent endobronchial markings in the perihilar regions and lower lobes, without confluent infiltrate. There is no effusion or evidence of adenopathy. There are no abnormal calcifications. Bony structures are intact.

Impression:

Findings consistent with bronchitis or asthma. There is no confluent infiltrate. There is no evidence of granulomatous disease.
